**Subject:** RE: ODFWS contact?

Thank you!

I mainly want to discuss Warrenton Boat Yard and Kronberg dump. Our START contract expires in June. We can task sampling plan development and we have funding so I wanted to get the 2020 projects (SI's) in the queue. Kronberg we can easily do, and depending on funding on the DEQ end, depending the sampling results, this could be a removal (of the dump). Warrenton Boat Yard – I know there was some concern on the part of your management concerning an EPA lead SI of a larger sediment area, but removal cannot address the sediment contamination at this site. I'd like to get DEQ's OK to put together a potential sampling plan for sediments in the area – 25 samples or so just to see if there are additional concerns.

We can catch up on the removal DEQ identified. We have moved forward to collect additional information. I think you were cc'd on the messages from Rebecca – looks like Johnson Oil is off the table. Newburg and M&M however look good. I have shared the links to the ECSI database and DEQ project leads with Richard Franklin (OSC for Newburg) and Randy Nattis (potential OSC for M&M). I will check in with them on Friday to see if they have reached out. It would be good for them to get their sampling plans approved before the START contract expires.

That's it – talk to you later today.

Ken

**Subject:** FW: ODFWS contact?

Here is a contact I got from 2 different CU staff.  
Can you tell me what projects you want to talk about for our meeting today so I can prepare?  
Thanks!

**Subject:** RE: ODFWS contact?

I would start with Jon Germond; if you need an actual biologist/fisheries person for the gorge, then that is different.

**Subject:** RE: ODFWS contact?

Odfw does not commonly work with us. I remember once years ago in eastern region. David might have a poc.

Paul,

Do you have a contact at ODFW that you can provide to Ken? If not, can you direct me to someone who would?

Thanks

Tricia

**Subject:** ODFWS contact?

Hi Tricia,

I was wondering if you had a contact at Oregon Fish and Wildlife. I need to run something by them regarding threatened/endangered species for Bradford Island. If you don't but know somebody at DEQ who might – that would work as well.

OK, talk to you this afternoon. Ken
